Technical Skills: Python,Java,Html,Css,Javascript,SQL

Soft Skills: Leadership,Communication,Adaptability,Teamwork

TRAINING&INTERNSHIP PROGRAM

Skillvertex	[09-2023]-[12-2023]
Domain-Artificial-Intelligence	

Successfully completed an intensive internship focused on fundamental concepts and applications of Artificial Intelligence, where I actively participated in lectures, discussions, assignments, and projects. I demonstrated strong engagement and critical thinking skills, consistently achieving outstanding performance and showcasing a deep understanding of AI principles and their practical implementations

PROJECTS

Phonepe-India Website:

In this project I have developed a responsive front-end website of phonepe. To make this front-end website I used technologies like Html, CSS, JavaScript and Bootstrap framework

Cryptocurrency Price Analysis through the lens of Artificial intelligence:

In this project we analyzed the price of cryptocurrency for some fluctuations in the environment then predicted the price at particular time. We have used technologies like HTML, CSS, Javascript, Bootstrap framework for designing the website and python, SQL for backend. The algorithms we used are Artificial Neural Network and Long Short-Term Memory to analyse and predict the price dynamics of Bitcoin, Ethereum, Ripple and numerous further cryptocurrencies.

CERTIFICATES

- 1.Certificate code:4678055 Python for beginners – Skillup Simplilearn.
- 2.Got certificate from SkillVertex by completing their internship.
- 3.Got certificates from Accenture, Infosys, Tata, Goldman Sachs by completing their virtual Internships.

ACHIEVEMENTS

- 1.Achieved three stars in coding with Python by Hacker Rank.
- 2.Developed or implemented new procedures or systems.
- 3.Come up with a new idea that improves things.
- 4.Re-organized something to make it work better.
